

Manufacturer: _____ **Model:** _____ **Serial #:** _____

In order to safely exchange any vacuum pump and comply with OSHA's Hazard Communication regulation, this form must be completed before this pump is allowed on the production floor. OSHA regulation 29 CFR 1910.1200 (Hazard Communication) requires all employers to properly label containers of hazardous substances. Labels must include an identity of the material(s) contained within and associated hazard warnings. It is illegal to ship pumps without this data.

Is Your Vacuum Pump Seized?: *Yes _____ No _____ *Maybe _____ *Seized Pumps are NOT eligible for \$500 Core Exchange

Hydrocarbon Lubricants ONLY: 19 Grade 20 Grade Full Synthetic Other _____

Please list all substances, gases, chemicals or by-products that have come into contact with the vacuum pump or related process equipment.
